

CDR Critical Thinking Self-Study Evaluation Tool

All practitioners must complete this Critical Thinking Self-Study Evaluation Tool for EACH continuing education course completed. View the CDR rationale and background for this evaluation here. (<https://www.dietitian360.com/cdr-critical-thinking-evaluation>)

The Process

These questions must be completed by all CDR credentialed practitioners upon completion of a self-study CPE product and returned to the provider prior to receiving a certificate of completion. A copy of this form should also be kept by the CDR credentialed practitioner. CDR credentialed practitioners must have the form and the certificate in their files should they ever be audited. Failure to include both certificate and completed tool will result in a failed audit and loss of the CPE credit.

Instructions

Carefully reflect upon the learning that has occurred because of the completion of the self-study and answer the following questions that will be used to assess elements of essential critical thinking. Responses should be written in complete sentences and where appropriate refer to the relevant section of the self-study material.

Your certificate of completion is awarded based on your earning the minimum score of 70% for the exam questions only. **Therefore, the certificate you received verifies that you successfully passed the knowledge portion of the exam.** Responses to the CDR Critical Thinking Self-Study Evaluation Tool (these are the 5 survey questions at the end of the exam) do not influence your exam score (each question is worth "0" points), we do not grade them, and they do not influence your exam score.

Just make sure you do submit some type of response for the survey questions. If you are audited by CDR, you will need produce two documents as proof of valid CPEU:

1. Certificate of completion (you already received this)
2. Your responses to the CDR Critical Thinking Self-Study Evaluation questions

View more info at: <https://www.dietitian360.com/cdr-critical-thinking-evaluation>

If you are not currently practicing, please reflect on your past or future practice.

Your certificate of completion is awarded based on your earning the minimum score of 70% for the exam questions only. Your survey responses do not influence your exam score.

After submitting your exam answers for the course (online), you will be directed to respond to these questions. Submit your responses online.

1. Was the education valuable and did it provide key learning? If yes, what aspects of the education was valuable or provided key learning? If no, why not?
2. Did you or will you make a change to your practice, based on this learning? If yes, what change did you make, or do you intend to make? If no, why not?
3. What barriers or limitations do you anticipate in implementing the new information into your practice, if at all?
4. What are the strengths and limitations of the information presented?
5. What are the identified GAPS in the evidence?
(A FAQ: What are GAPS? Generally Accepted Practices: What professional behavior changes are discussed and advanced, according to the information? These GAPS should be evidence-based, and recognizable by the professional/scientific/research community.)

**Thank you for participating in the Dietitian 360 experience.
Help other professionals. Complete the optional survey here.**
